FEARED ST. LOUIS POLICEMEN. Mrs. Christina Wahatato of Fin land Deserted Children.

Monday night a warmin supposed to be Mrz. Christina Wahatato deserted her two children in the bazgage-room at Union Sta-tion and was later arrested by the police of the Third Diarriet. She was taken to the third Diarriet. She was taken to the city Hospital, but the physicians were unable to find any one who could understand what she said. She was held for observation. Late hist night a well-dressed woman appeared at the hospital and officed to converse with her. The visitors name was not learned.

Hardly had the first word been spoken when the patient thew her arms about her visitor and wept.

Mrs. Wabutato stated that her husband left their home in Finland a few years ago to make his fortune in this country. Three months ago he sent her money to meet him at Astoria, Ore., where he is in the fish business.

him at Astorna, Ore., where he is in the fish business.

When she reached Union Station a policeman spoke to her and used a word which in her language sounded like hanging. Unsequainted with the customs of this country she became frightened and ran, having her children in the baggage room where she thought they would be safe. She tried to lead the policeman away from them by running through the track yard.

Police Sergeant Rea and Detectives Howard and Badger followed Mrs. Wahntato, who escaped the station officers, but was arrested in Lafayette Park.

This morning the Interpreter will return to the hospital and the woman will probably be started on her trip across the country to her husband.

A. N. DALE MOVES TO ST. LOUIS.

New General Agent of Illinois Central to Have Extended Jurisdiction. A. N. Dale, the new general agent of the Illinois Central in St. Louis, has removed his family from Memphis, his former home,

to No. 2623 Lindell boulevard, this city.
Mr. Dale succeeded Clarence Parker as
general agent, upon the latter's promotion to coal traffic manager of the Illinois
Central and Yazoo and Mississippi Valley
railroads. Mr. Dale departed for Nashville last night, and will return next Monday.

A. N. DALE, General agent of the Illinois Central Railroad Company at St. Louis.

Much of the work of improvements

Much of the work of improvements now being carried on by the Illinois Central comes under Mr. Dale's jurisdiction, as many betterments are planned for St. Louis on account of the growing importance of this city as a railroad center.

The Illinois Central is engaged in making its \$23 miles from Chicago to New Orleans 1,848 miles by double tracking; is raising millions of catalpa trees for the timber; is shading its stations, cattle pens and right-of-way; is building great reservoirs, and has other plans for making an ideal railroad. It will soon have its own telephone system, in addition to telegraph, and, with the completion of the double track, it will have added another protection to travelers and cleared the way for still faster schedules.

With the other Harriman road, it is ex-

with the other Harriman road, it is expected that the Illinois Central will soon take a membership in the Terminal Railroad Association of St. Louis, which is expected to hold the membership of every railroad entering St. Louis before the opening of the World's Fair.

World's Fair terminal negotiations, stated yesterday that President Ramsey of the Wabash is expected to return to St. Louis about the middle of next week. At the same time Robert Mather and M. A. Low of the Rock Island are expected to return to St. Louis.

Immediately upon the return of these officials, whose roads are most vitally interested in the settlement of the terminal situation, a meeting will be called and another effort made to settle the matter.

At the Wabash headquarters yesterday it was stated that Mr. Ramsey was not expected to return for ten days or two weeks. General Manager Russell Harding of the Missouri Pacific will return next week, and on Thursday, as announced, they will meet with the Terminal managers to finish work on the details of the terminal improvements.

The Rock Island may be taken into the Terminal Association at the next meeting of directors, and it may not. —W. C. Sith, freight Line announces that J. P. Brazill has been appointed agent of the Corn Belt, with a first-page humber of the

work on the details of the terminal improvements.

The Rock Island may be taken into the Terminal Association at the next meeting of directors, and it may not. It has been officially intimated at least a dozen times that it will go into the Terminal, but it has been stated that formal action may not be taken for some time.

It will not be long before the Burlington, the Katy, the Illnois Central, and the other St. Louis lines not in the Terminal will become members. Railroad men expect other roads to come in, at least one, and it will go into the Terminal. And, in adition, almost all of these companies have intimated that they will build additional independent terminal facilities of their own. St. Louis railroad men say that this city is better off in terminal facilities than any other city in the country. This being the case, with the Terminal and the independent movements being made and planned. St. Louis promises soon to be placed beyond the possibility of congestion.

ting an establishment in East St. Louis known as the National Mercantile Company, They are charked with using the mails to defraud.

"The National Mercantile Company," inserted advertisements in several newspapers. On its face, the advertisement read that a fur collerette, a half dozen handkerchiefs and a leather pockethook would be given to every agent who sold for the company eight of their sold-plated and enameled brooches, at 25 cents each. Several thousand persons throughout the country responded, sending in \$2, and in every instance making request that the collarette be forwarded.

THE MUSH ERA. The mush era.

The manufacture of outmeal was introduced into this country about fifty years ago. Cracked wheat and similar preparations followed. The whole population began eating mush. Result: Amylaceous dyspepsia, universal sour atomach, constipation, disordered livers, thin blood, weak muscles and nerves, brain fag and nervous exhaustion. The remedy lies in replacing these starchy foods with Toasted Wheat Flakes, sweetened with Malt Honey. Each appetizing flake is crisp, delicate, brown, thoroughly cooked and toasted. The starch of the wheat is converted into dextrine, thus making it immediately digestible and a godsend to those who cannot digest starchy foods. Toasted Wheat Finkes are ready to serve at once without further cooking and are delicately delicious. Every package bears a picture of the Battle Creek Sanitarium. Look out for imitations.
